# INTRODUCTION

3

- This cutting-edge system is designed to revolutionize the way we plan and manage events, from small gatherings to large-scale conferences.
- With the Event Management System, you'll have all the tools you need to create unforgettable events that leave a lasting impression on your guests. Whether you're planning a corporate event or a wedding, this system has got you covered. But don't just take my word for it – let's dive into the details and see what makes this system so special.

# PROJECT OVERVIEW

4

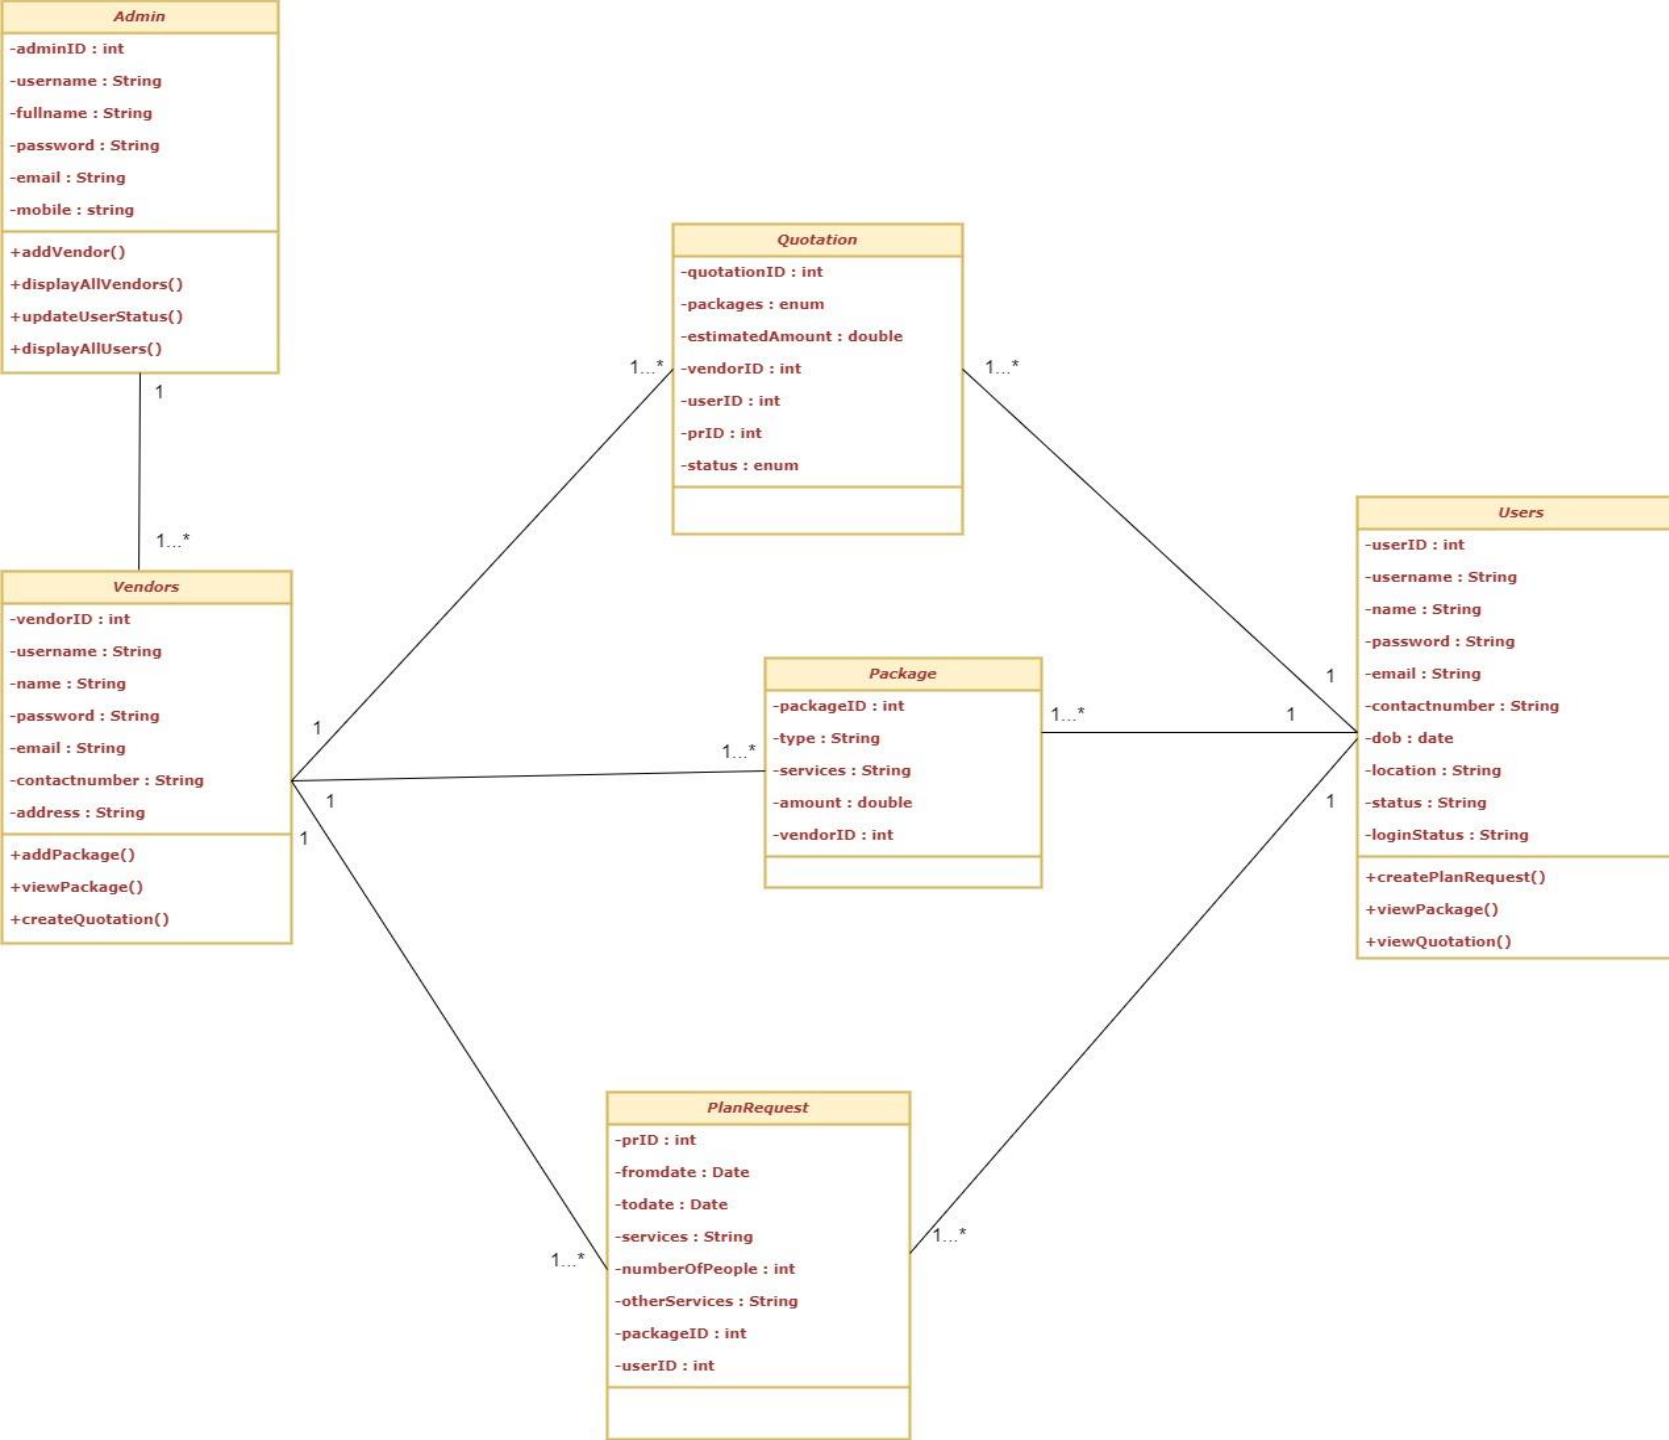

## SCOPE OF THE PROJECT

- Developing a user friendly and intuitive interface that can be accessed from any device with an Internet connection.

## TARGET AUDIENCE

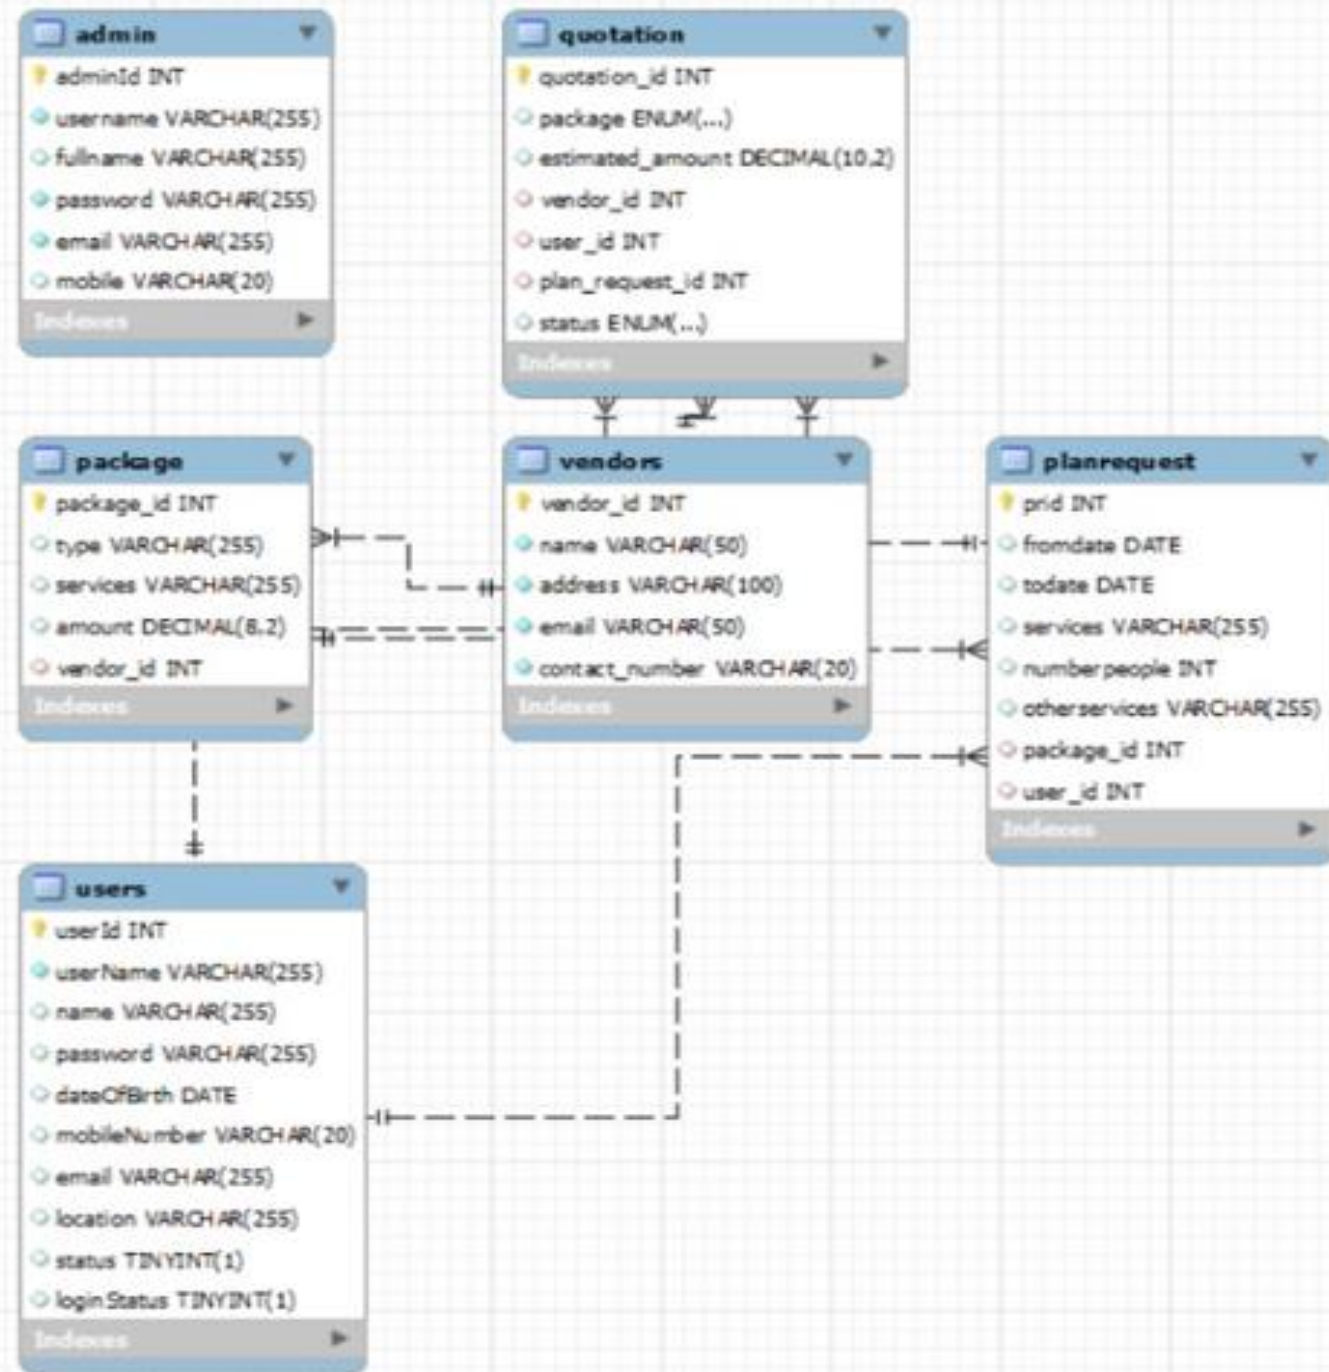

- Event organizers, planners, customers, and promoters who need a reliable and efficient tool for event management.

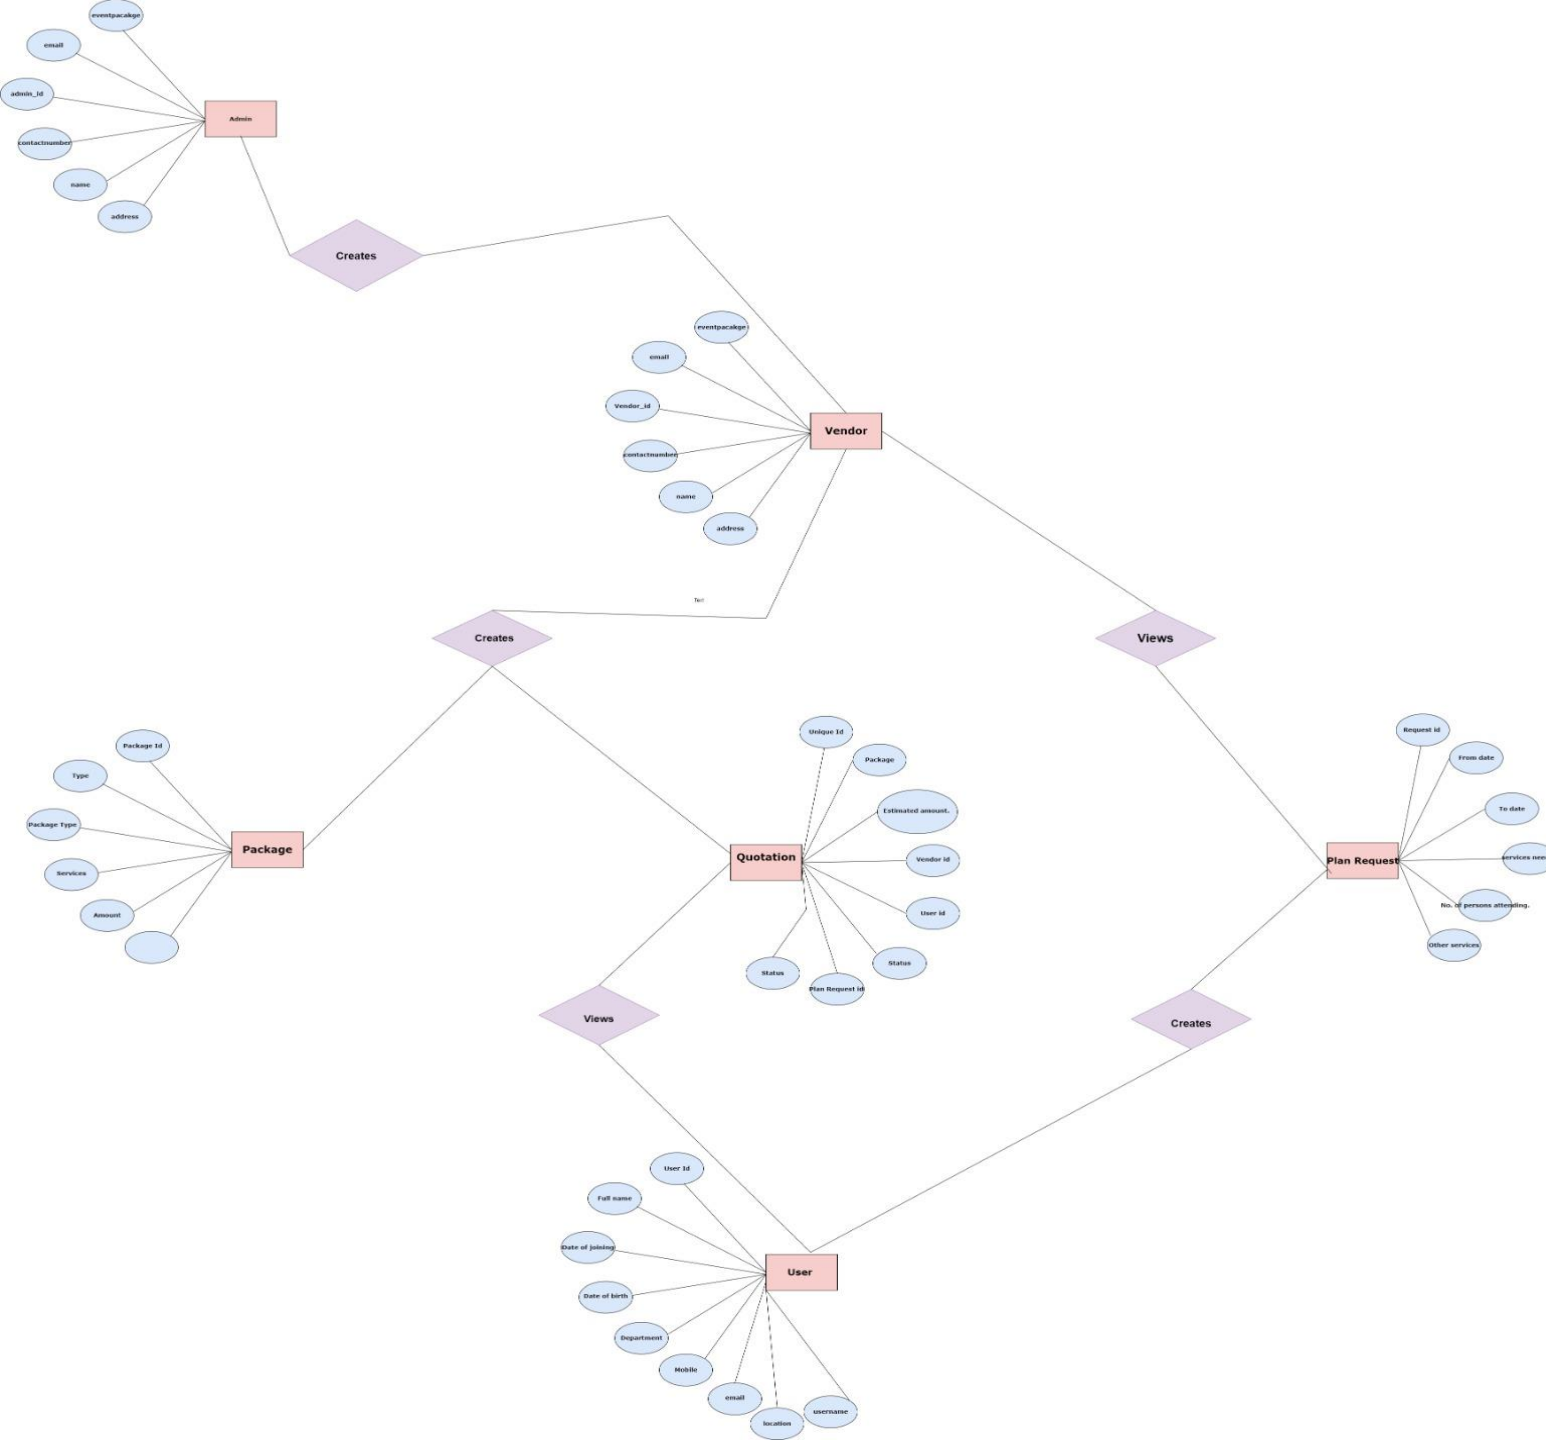

# CLASS DIAGRAM

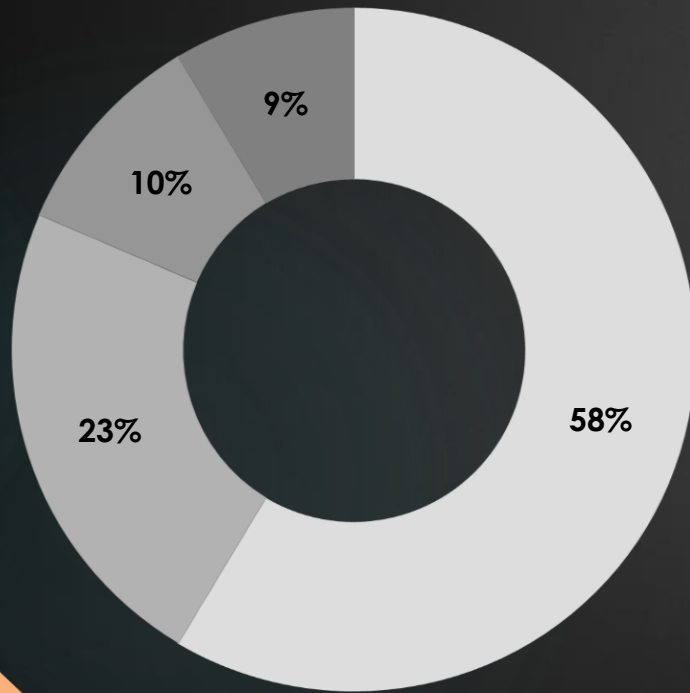

# EER DIAGRAM

# SCHEMA DIAGRAM

# TECHNOLOGIES USED

The Event Management System was developed using a variety of technologies, including Java, MySQL, HTML, CSS, and JS.

- ▶ Java: Backend Development
- ▶ MySQL: Database Management System
- ▶ HTML and CSS: Front-end Development
- ▶ JS: Dynamic functionality and interactivity on the website.

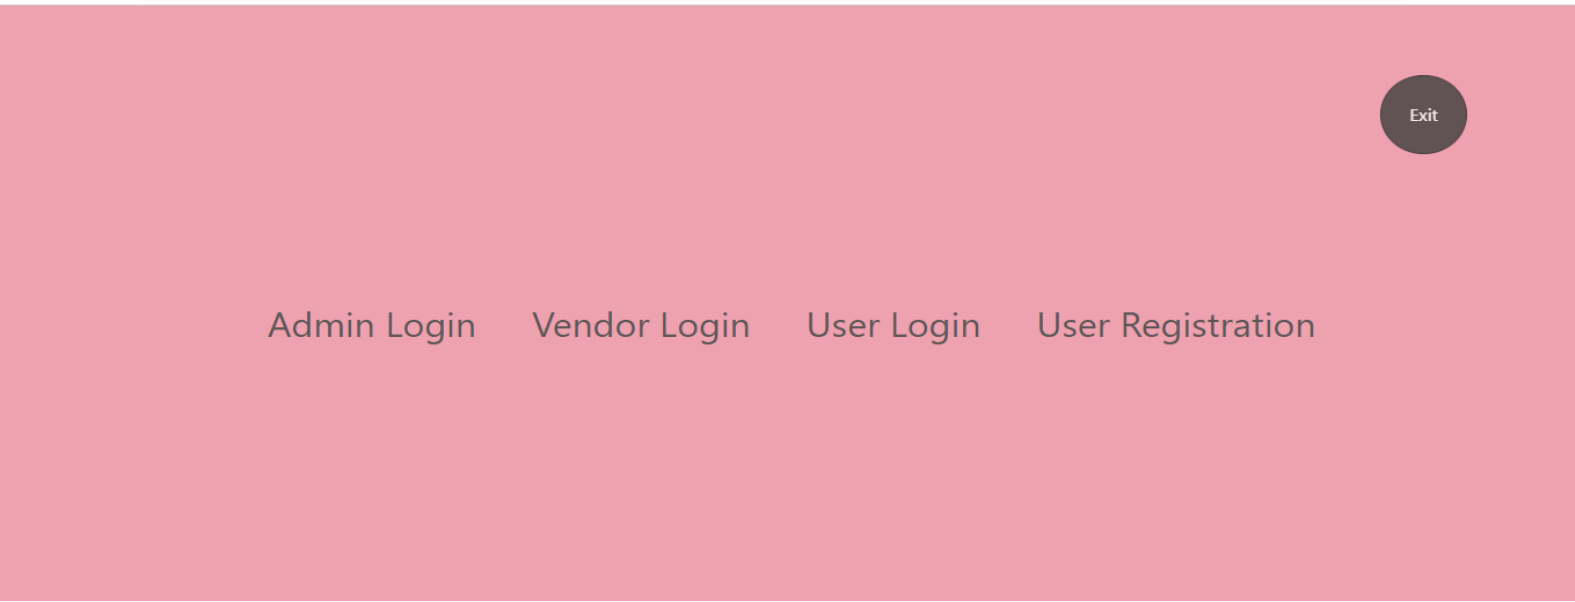

# PROJECT DEMO

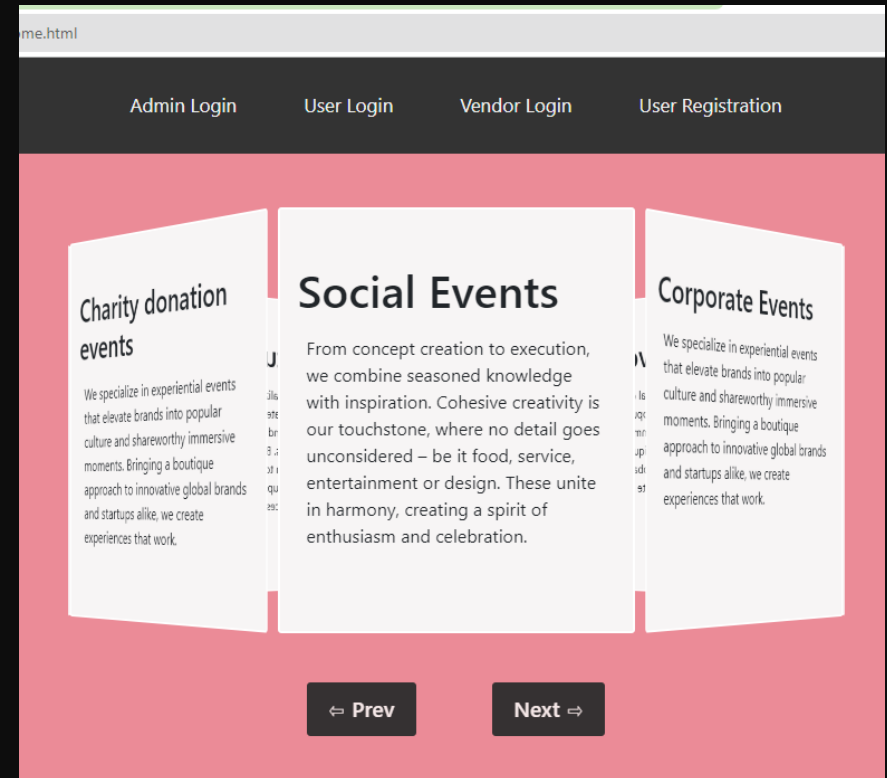

The project consists of four main aspects:

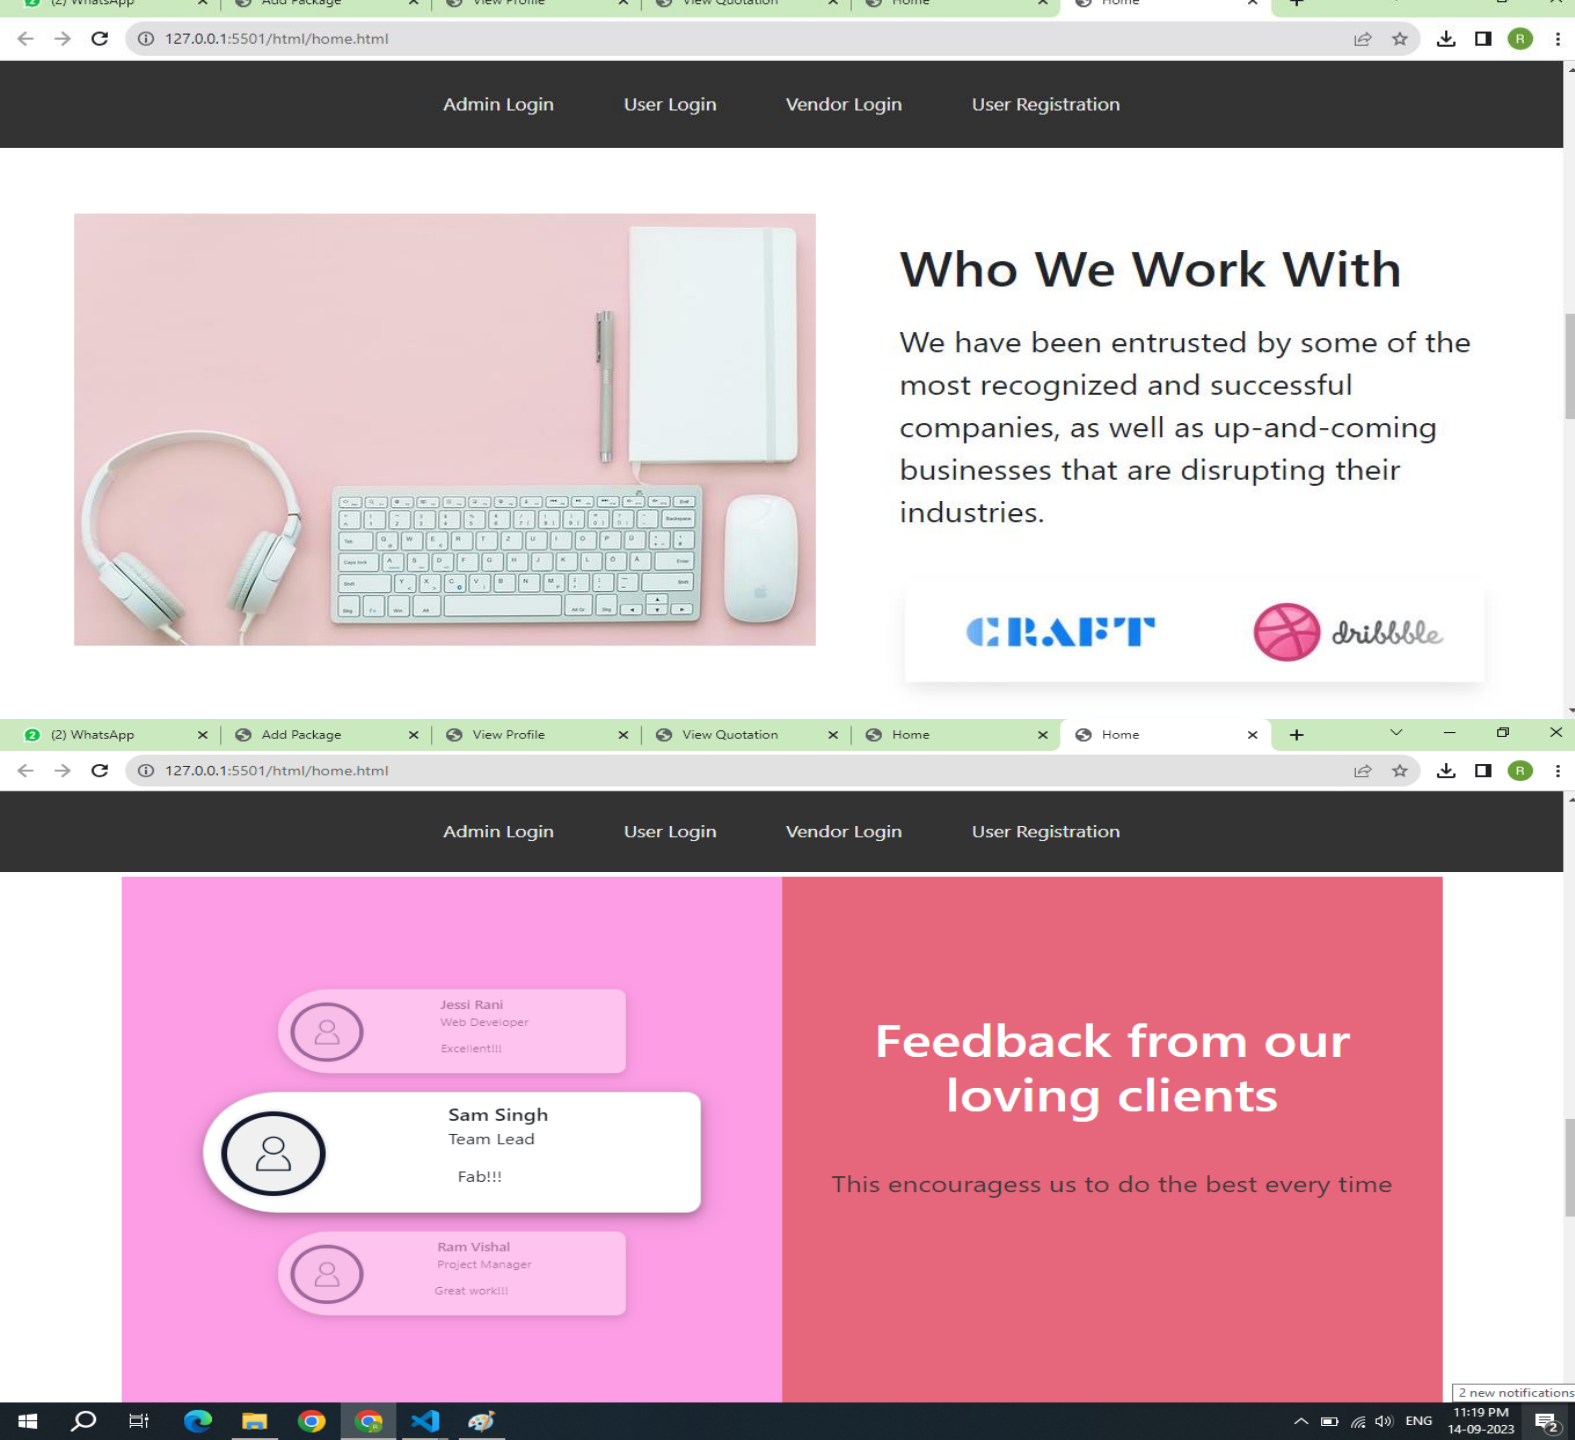

- ▶ Home Page
- ▶ Admin
- ▶ Users
- ▶ Vendors

Each page has different sub-functionalities.

The screenshot displays a web browser window with the address bar showing '127.0.0.1:5500/chnpass.html'. The browser's tab bar contains several tabs, including '(2) What', 'Add Pac', 'View Pr', 'View Qu', 'Home', 'User Ho', 'Change', and 'View Pr'. The browser's interface includes a back button, a forward button, a refresh button, and a search icon. The main content area shows a 'Change Password' form with three input fields: 'Current Password', 'New Password', and 'Confirm Password', each followed by a red asterisk. A 'Submit' button is located at the bottom of the form. The Windows taskbar is visible at the bottom of the screen, showing various application icons.

# PROJECT BENEFITS

22

The Event Management System is a game-changer for event planners and organizers.

## **Hassle free and easy to use**

- Quickly create and manage events with just a few clicks.
- No more hassle with spreadsheets or paper forms.

## **Cost-effective and efficient**

- Reduce the time spent on administrative tasks.
- Increase in attendee engagement and satisfaction.
- Less printing costs

## CONCLUSION

- In conclusion, the Event Management System is a powerful tool that can revolutionize the way events are managed. With its intuitive user interface and advanced features, it can help event organizers save time, reduce costs, and improve attendee satisfaction.
- Whether you're planning a small corporate meeting or a large-scale music festival, the Event Management System has everything you need to make your event a success. So why wait? Try it out today and experience the benefits for yourself!
